PROFESSIONAL SUMMARY

IT Engineering student with hands-on experience in Python development, backend logic, REST APIs, and database-driven applications. Passionate about building scalable software solutions and eager to contribute to backend or full-stack development roles

TECHNICAL SKILLS

- **Languages:** Python, HTML, CSS, JavaScript
- **Frameworks & Technologies:** Django, React.js, Node.js, Express.js
- **Backend Concepts / APIs:** REST APIs, CRUD Operations
- **Database:** MySQL, PostgreSQL
- **Tools & Platforms:** Git, GitHub, VS Code, Docker

EDUCATION

B.E. in Information Technology

Sal Engineering & Technical Institute | Ahmedabad

2022 – Present

(Expected Graduation: 2026)

Higher Secondary Certificate (HSC)

A one School

2021 – 2022

Secondary School Certificate (SSC)

Lotus School

2019 – 2020

EXPERIENCE

BISAG-N – Software Development Intern

Duration: Jan 2026 – April 2026

Tech Stack: Python, Django, PostgreSQL, REST API, HTML, CSS, JavaScript

- Collaborated with a team to develop an Adaptive Learning Management System (LMS) for structured digital learning.
- Contributed to backend development, including REST API integration, database workflows, and module implementation.
- Worked on features such as quiz management, assignments, student progress tracking, and multi-role workflows (Admin, Teacher, Student).
- Assisted in debugging, performance optimization, and enhancing overall system functionality.

PROJECTS

URL Saver – URL Management Dashboard Tech Stack: React.js, Node.js, Express.js, MySQL, Material UI, REST API

- Built a URL management dashboard where users can add, edit, delete, and organize links easily through a simple and interactive interface.
- Created a category/folder system to group URLs properly, along with edit and delete options for better management and user convenience.
- Added live search and filtering features so users can quickly find URLs by title, link, or category without refreshing the page.
